RE: Royal Gorge Draft documents

Dear Mr. Johnson:

On November 21, 2007, Royal Gorge provided some preliminary draft documents to Placer County related to our planning for future development of property in the Donner Summit area, in response to your request. These documents are incomplete works-in-progress. They require further modification and detail in order to be suitable for purposes of a future specific plan or project application submittal.

Please return all of the documents to Royal Gorge so that we may complete them and prepare our formal project submittal.

Sincerely,

Mike Livak
Royal Gorge, LLC Project Manager
